Reporting & Dashboards: Microsoft Power BI, Microsoft Power Automate

PROFESSIONAL EXPERIENCE

Senior SQA Analyst

Jun 2022 – Present

Contour Software Pvt Ltd – Karachi, Pakistan | Web-based Human Resource Information System (HRIS)

- Lead quality assurance for a web-based HRIS product, owning test strategy, planning, execution, and final release sign-off across multiple deployment environments.
- Design and execute comprehensive functional, regression, GUI, integration, and system testing – authoring **150+** regression test cases (**30% automated**) with full requirement traceability, plus build verification testing (BVT) on every deployment.
- Manage Azure DevOps boards and sprint release cycles, sustaining a consistent delivery velocity of **4** work items per sprint within a focused team.
- Built and maintained Microsoft Power BI dashboards tracking QA metrics – defect density, test coverage, and release readiness – giving stakeholders real-time quality visibility.
- Own the end-to-end defect lifecycle – logging, post-fix impact analysis, and concise defect reporting – improving pre-release defect detection by **7%** and cutting production defect leakage by **7%**.
- Conduct gap analysis against existing business solutions and review specification and design documents to surface defects early in the development lifecycle.
- Mentor QA peers and drive continuous improvement of testing processes, standards, and tooling across the function.
- Additionally, as **Certified Scrum Master** and Business Analyst for the team: led the Kanban-to-Scrum transition, sprint planning, and backlog prioritization to keep QA delivery aligned with business goals.

Senior SQA Analyst

Jan 2021 – Jun 2022

Folio3 Software Pvt Ltd – Karachi, Pakistan | NetSuite (Oracle ERP) systems integration

- Led API-level integration and regression testing with NetSuite (Oracle ERP) as the central system of record across **15+** third-party systems spanning e-commerce, payments, marketplaces, CRM, and ticketing.

- Validated e-commerce integrations (Shopify, Magento & Magento 2, WooCommerce, BigCommerce, Spree Commerce), ensuring accurate order, inventory, and fulfilment data flow.
- Tested payment-gateway integrations (Stripe, Square) and marketplace connectors (Amazon, eBay, Joor) for transactional accuracy and reconciliation integrity.
- Verified CRM integrations (Salesforce, HubSpot) and ticketing-system integration (Zendesk) to guarantee consistent, end-to-end data integrity.
- Authored detailed test cases mapped directly to user stories and produced QA metrics – traceability matrix, coverage reports, regression reports, and QA release notes.
- Managed multiple concurrent integration projects under tight release timelines.

SQA Analyst

May 2018 – Dec 2020

Contour Software Pvt Ltd – Karachi, Pakistan | Dealership-management & health/fitness ERP (desktop & web)

- Delivered QA for desktop and web-based ERP applications, covering functional, integration, GUI, and system testing across full release cycles.
- Performed SQL-based database validation to ensure data integrity and reliable system operations.
- Built structured test plans and test cases, estimated and coordinated testing activities, and signed off releases with complete QA documentation.
- Collaborated with onshore and offshore teams and mentored junior testers, improving team processes and testing standards.

Junior SQA Analyst

Aug 2017 – Apr 2018

Contour Software Pvt Ltd – Karachi, Pakistan | Dealership-management & health/fitness ERP

- Tested desktop-based dealership and health/fitness ERP products; authored test cases from user stories and executed detailed functional testing.
- Conducted SQL data validation and documented test scenarios and use cases.

EDUCATION

Bachelor of Science (BSc) in Computer Science

2013 – 2017

University of Karachi, Pakistan

CERTIFICATIONS

- **ISTQB Certified Tester, Foundation Level (CTFL)** – International Software Testing Qualifications Board (ISTQB), 2019
- **Certified ScrumMaster (CSM)** – Scrum Alliance, 2024
